Liz and Melissa

David O just called and wants us to publish the new language and the current data right away so it is on the site for the R6 public mtg

Thanks

Chris

Updated below. Please make sure this is accurate and includes the Aug. 10 data language.

Other question is, should we wait to send or post if you expect to have R9 data soon?

**Subject:** FW: NM data language for message approval

To accompany the posting of data from NM, this is the messaging we'd like to get approved ASAP.

As soon as we have the data, it will need to be posted on the web and sent out.

Please let us know when EOC has approved.
